**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Unseasonably strong winds will make walking conditions very difficult over higher ridges and summits.

Forecast for Monday 27 Jun 2022

Weather: Sunny periods and scattered showers. The showers most frequent and heavy at times in the morning, becoming fewer and lighter during the afternoon.

Maximum wind: Not as windy as Sunday but still quite a strong west or southwest wind on the tops, average speeds 20 to 30mph with gusts 40mph.

Chance of cloud-free hill tops above 800m: 60% improving 80% in the afternoon.

Low cloud and visibility: Occasionally poor visibility with clouds down around 600 to 700m near heavier showers in the morning. Visibility becoming very good in the afternoon with clouds lifting and breaking up.

Temperature: **Valleys:** 10 Celsius rising to 18 Celsius.
At 800m: Plus 9 Celsius.
Freezing level: Staying above the summits.
